

SINCE 1981

+ MANUFACTURER OF COMPREHENSIVE GAS INSTALLATION SYSTEMS

WEBA - one of the largest Polish companies manufacturing products for natural gas distribution networks and house connections. We specialize in providing comprehensive solutions for supplying natural gas and LPG for industrial and residential needs.

Our company provides all necessary equipment for gas connections in residential, public and industrial buildings - gas risers, PE-steel transitions, telescopic extension spindles for underground ball valves, metal and plastic gas cabinets, gas filters, below and above ground entry pipes to buildings, gas pressure regulating and metering stations (GPRM stations), gas trains etc.

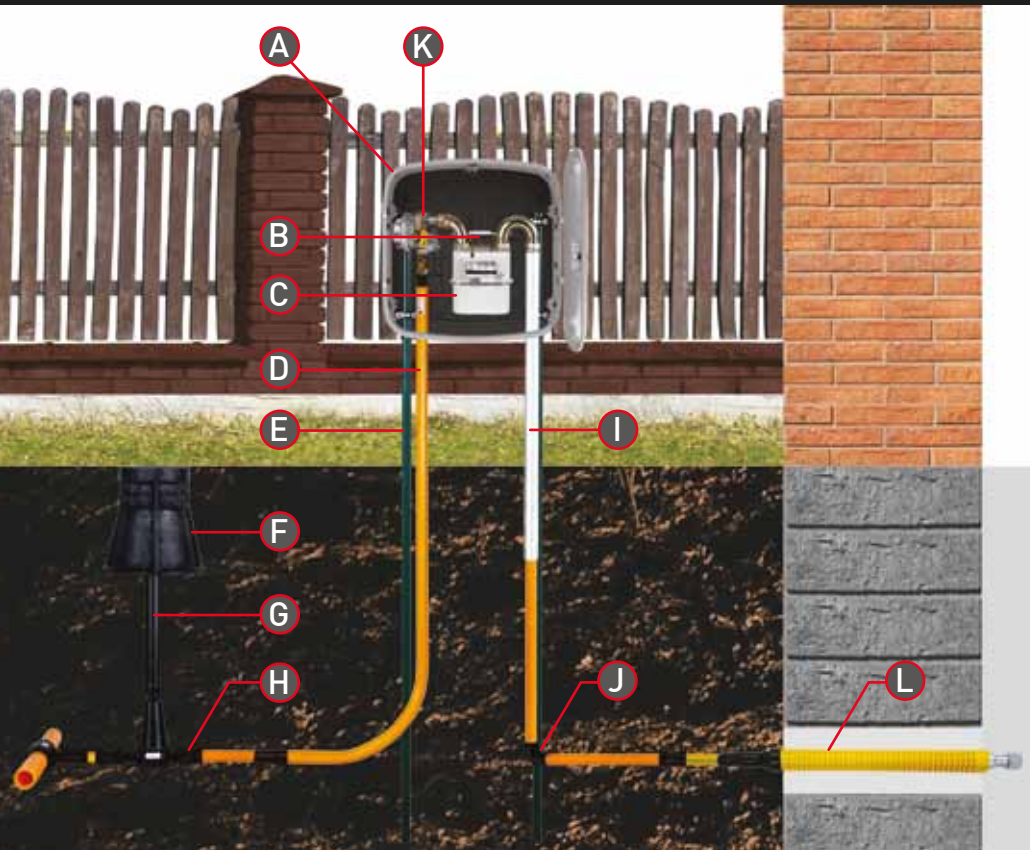

We are also an authorized distributor of gas fittings and equipment of well-known European manufacturers.

We specialize in low, medium and upper medium pressure (up to 16 bar).

WEBA also specialises in designing and manufacturing products on an OEM basis to client specification.

RESIDENTIAL GAS INSTALLATION SYSTEM

▲ Gas pressure reducing & metering point

▲ Plastic boxes 300x340x200

▲ Gas meter bars

- A** Plastic gas cabinet
- B** Gas meter bar
- C** Gas meter
- D** Gas riser
- E** Stand for gas cabinet
- F** Surface box
- G** Telescopic extension spindle for PE valve
- H** PE ball valve
- I** Connection column
- J** Electrofusion fitting
- K** Gas pressure regulator
- L** Gas entry pipe

▼ PE-steel transitions

▼ Telescopic extension spindles

▼ Below / above ground entry pipe

▼ Insulated gas risers

INDUSTRIAL GAS INSTALLATION SYSTEMS

▲ Gas pressure and reducing stations (GPRM stations)

DN 25-65

DN 25-40

DN 80-150

▲ Gas filters

▲ Aluminium cabinets for GPRM stations

▲ Pipe fittings (gas trains)
